These are the only records that I have found concerning constables within Kent County. I did not find a constable appointed nor elected for Precinct – 3. I am not sure if these constables did not like the job or if it was so dangerous that most of them decided that this line of work was not for them. There seems to have been quite a few constables back in the day. Some of these men might have been deputy constables but were listed as constables on the bond paperwork.
